Joinery

NSPP offers a number of nationally recognised joinery qualifications designed to ensure our students are competent in their trade and highly employable within the construction sector.

Courses:

➤ Level 2 (NVQ) Diploma in Wood Occupations (Site Carpentry)

Aimed at those already working in joinery who want to improve their skills. You will produce an NVQ portfolio based on the work you complete whilst in employment.

Some of the units you will complete are:

- Installing first fixing components
- Installing second fixing components
- Erecting structural carcassing components
- Maintaining non-structural carpentry work
- Setting up and using transportable cutting and shaping machines

➤ Level 3 (NVQ) Diploma in Wood Occupations (Site Carpentry)

For those already working in joinery who are looking to progress, a Level 3 qualification involves complex skills and can be used as a pathway to assessing, supervisory and management positions.

Some of the units that you will complete are:

- Confirming work activities and resources for an occupational work area
- Developing and maintaining good occupational working relationships
- Confirming the occupational method of work

You will also choose an optional for example:

- Erecting complex structural carcassing components
- Maintaining non-structural and structural components
- Setting up and using fixed or transportable woodworking machinery
